Contents

List of Figures

List of Tables

1 System Analysis

1.1 System Overview

Describe the system in brief and your architecture choice.

1.2 System Diagram

Insert System Diagram.

1.3 Actor Identification

Identify all actors interacting with the system.

1.4 Design Rationale

1.4.1 Architectural Style

Identify and briefly explain the architectural style, e.g. 3-tier architecture.

1.4.2 Design Pattern(s)

Identify the design pattern(s) you have deemed applicable to this architecture.
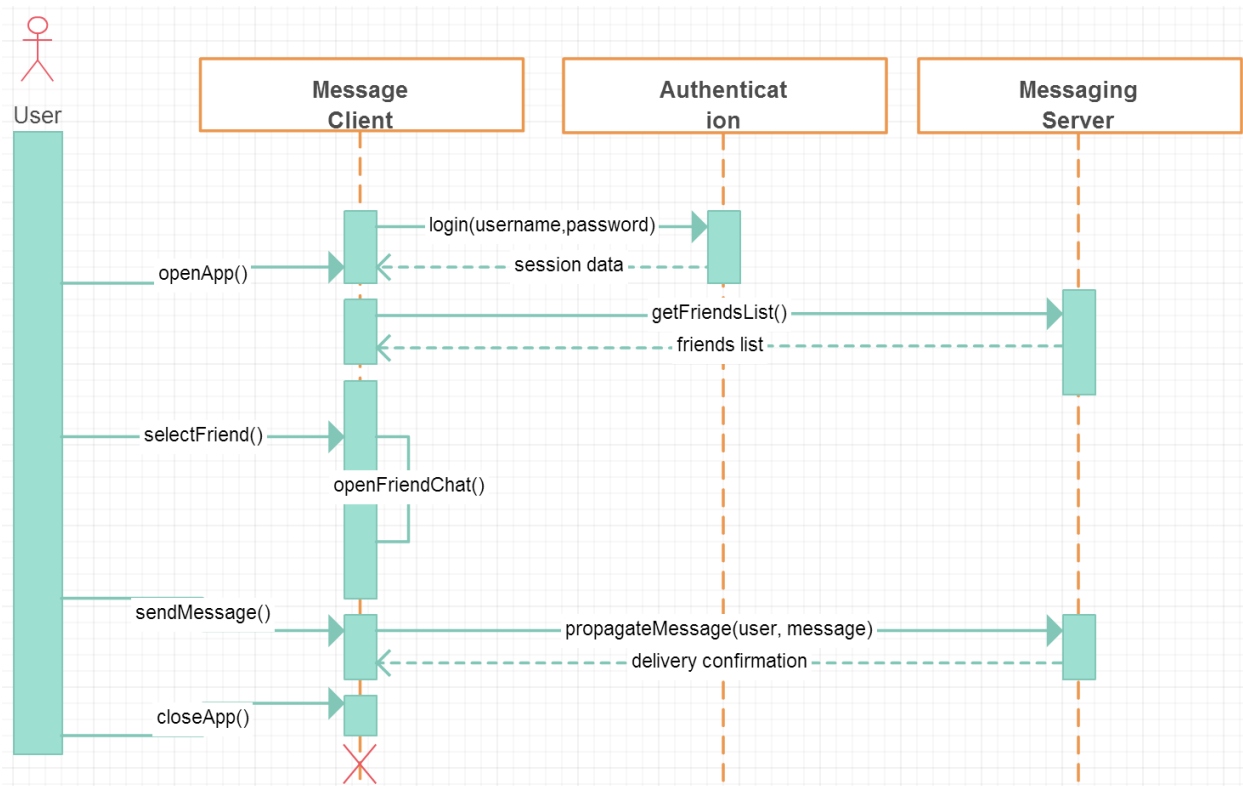

1.4.3 Framework

Identify and briefly explain the frameworks you are using, if any. Also specify the rationale behind selecting this framework.

2 Functional Design

Identify all significant workflows as sequence diagrams using the following format.

2.1 Diagram Title

Figure 1: Diagram Title

3   Structural Design

Identify all components and model them using class diagrams.
